### 1. Notes Concerning The License Codes

The software can only be activated by entering a certain license code. The license code contains information on how many licenses and which set of functions (Basic and Plus Version) will be enabled.

Each registration process will verify the licensee's information by sending a notification to PROVISIO's License Tracking Server. The data will not be passed on to any third party. However, PROVISIO shall reserve the right to take legal measures against the licensee in any case of license abuse.

### 2. License Rates / Warranty / Alterations / Misapprehensions

All prices are net in Euro plus legal VAT provided the companies concerned are located in Germany. If they provide their sales tax ID number, EU companies shall not be liable to pay 19% extra sales tax. However, they shall be liable to pay VAT on the purchased products in their own country and might have to pay additional shipping fees on hardware orders. Hardware products carry a warranty of 12 months from the date of invoice. Subject to change and error!

Customers have the chance to 'try before you buy' (Download a FREE Evaluation from our website: [www.provisio.com](http://www.provisio.com) !!). For this reason, our refund policy for software is restricted to replacement of USB Stick damaged in shipment only. Damaged USB Stick may only be exchanged for the same product within 30 days of purchase by sending the damaged product to the return address on the package.

### 3. Notes Concerning Payments By Bank Transfer Within The EEA/EU

For foreign bank transfers in Euro, please always use your and our IBAN and BIC to minimize costs, as any bank transfers carried out in such a manner will usually not be any more costly than domestic bank transfers.

#### PROVISIO Account-Information:
