## 1. Functionality of the license codes

The software can only be activated by entering a Sitekiosk license code. The license code contains information on how many licenses and which set of functions (**Basic** and **Plus Version**) will be enabled.

Each registration process will verify the licensee's information by sending a notification to PROVISIO's License Tracking Server. The data will not be passed on to any third party. However, PROVISIO shall reserve the right to take legal action against the licensee in any case of license abuse and infringement.

## 2. License Rates / Warranty / Alterations / Misapprehensions

All prices are net in U.S. Dollar plus sales tax if applicable. PROVISIO offers a 30-day return policy on hardware based on manufacturer return policies which is subject to change and error. Customers have the opportunity to test the software prior to purchasing (Download a free evaluation copy from our website: <http://www.provisio.com/>).

For this reason, our refund policy for software is restricted to replacement of USB Stick damaged in shipments only. Damaged USB Stick may only be exchanged for the same product within 30 days of purchase by sending the damaged product to the return address on the package.
